

HEALTH

UPDATED PUPPY PRICE LIST FOR 2021

Please note that because of health concerns, puppies with the MERLE coat pattern/colour are not eligible for Kennel Club Registration

The largest group fell into the up to £2,000 category with 30% (12 responses), £2,500 at 15% (6 responses), £3,000 15% (6 responses) and £3,500 at 10% (4 responses)

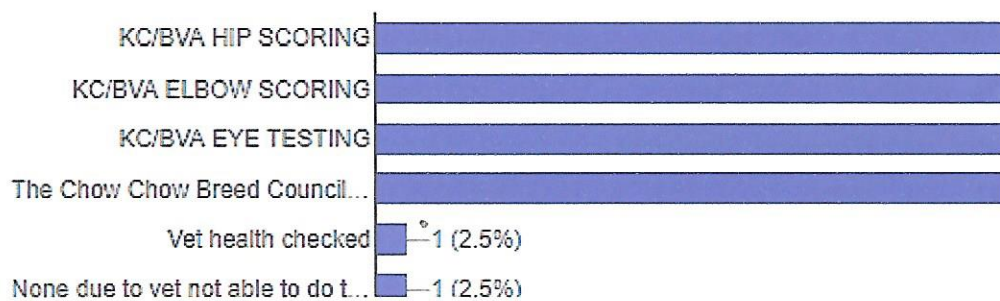

This suggests that the majority of breeders will charge between £2,000 and £3,000 for their puppies

The lowest price recorded was £1,500 and the highest £4,500 with one response for each with 36 of the 40 responders carrying out some or all of the recommended health testing. Please be sure to ask the breeder for copies of the health testing results that have been carried out.
